

sportFM equi

Full duplex wireless communication system.

Our solution for the sport referees.

General Description

1.8 GHz “Wi-Fi and Bluetooth” Interference-free radio frequency.

[sportFM equi](#) offers full duplex wireless communication, can talk and listen simultaneously without having to press any button just like on the phone. With the [Clear Voice DSP](#) technology offers lasting comfort and crystal clear audio even in an loud sports stadium. The [sportFM equi](#) model is designed specially for all sport referees. It is also available with an optional microphone mute button.

Features

- Easy to use - auto turn ON/OFF.
- Digital ambient noise blocking
- Small size and weight.
- Provides digital high-security communication.
- Global non-licensed frequency band.

New features

With BC09 cable You can now connect and record conversations on your phone.
For training purposes, you can also record videos of arbitrators' and conversations for later analysis.

With power bank

If for some reason you have not charged the sports radio or it has to work for a very long time, connect a small (only 2000 - 3000 mAh) power bank and use for over 20 hours.
